## CAREER OBJECTIVE

Ambitious and curious B.Tech student with a growing passion for software development and technology. Seeking an internship opportunity to apply my programming and problem-solving skills in a real-world environment, collaborate with experienced professionals, and build a strong foundation for a career in the tech industry.

## EDUCATION

### B.Tech – Industrial Internet of Things (IIoT)

St. Vincent Pallotti College of Engineering and Technology, Nagpur

Current CGPA: 7.5 | 2nd Year

## TECHNICAL SKILLS

**Programming Languages:** C++

**Web Technologies:** HTML, CSS, JavaScript

**Concepts & Tools:** IoT Sensor Integration, Problem Solving

## PROJECTS

### Amazon Clone Webpage

Developed a fully functional Amazon clone webpage using HTML and CSS, replicating the core layout and design of the Amazon website.

Implemented key UI components including a navigation bar, product listings, and footer sections with responsive styling.

Strengthened front-end development skills by focusing on structured HTML markup and advanced CSS styling techniques.

## STRENGTHS

Fast learner who adapts quickly to new tools, technologies, and working environments.

Strong analytical and logical thinking with a structured approach to solving problems.

Collaborative team member with effective verbal and written communication skills.

Self-motivated and eager to take on challenges that push technical growth.
